Description

XBLUE: Professional EVA Foam Footwear Discover unparalleled comfort with the X-BLUE model – ultra-lightweight footwear made from high-quality EVA foam, designed for the most demanding users. It is the perfect choice for work in hospitals, medical offices, professional kitchens, as well as for use in the garden or at the pool. Key Features and Benefits: - Extreme Lightness: The weight of one pair is a maximum of 340g (approx. 230g for size 38), allowing you to forget about leg fatigue even during long shifts. - Top-Level Hygiene: The footwear is fully machine washable at temperatures up to 50˚C, ensuring sterility and cleanliness in the workplace. - Certified Safety: The product is certified according to EN ISO 20347:2022 (CE category II), guaranteeing antistatic properties (A), heel energy absorption (E), and the highest class of slip resistance (SRC). - Anatomical Comfort: An integrated, contoured footbed with massage nubs supports the longitudinal arch of the foot and stabilizes the toes, ensuring all-day comfort. - Advanced Ventilation: Specially designed ventilation holes (min. 5 on each side) provide excellent airflow while protecting against liquid spills from above. - Practical Design: The footwear features a convenient flip-over heel strap for quick adjustment. The sole tread is designed to effectively channel liquids away from the surface. Customizing Comfort – Interchangeable Insoles For even greater convenience, you can add dedicated, interchangeable insoles to any X-BLUE model to further enhance hygiene and comfort: Luxor Insoles: Antistatic and anti-sweat, machine washable up to 40˚C. Actifresh Insoles: Providing extra freshness and cushioning throughout the entire workday. Technical Specifications: Material: EVA Foam Available Sizes: 34–48 Available Colors: White, navy blue, green, orange, light blue, pink, black. X-BLUE – Your daily step towards professional comfort.

Collection

Based on many years of experience, we have developed, under the JULEX brand, footwear for professionals, persons working in the most severe conditions. We combined qualities such as resistance, protection and comfort, at the same time preserving compliance with the requirements of European standards for professional and protective footwear. Most models may be used in companies which have implemented the **HACCP system**. Our footwear is durable and resistant to external factors, which allowed usage in food industry, meat industry and gastronomy.
