Description

Piumetta – Professional Medical and Occupational Footwear with Rocker Soles The Piumetta collection, manufactured in Poland for many years by **JULEX**, is a symbol of modern comfort at work. Our professional footwear has been designed for specialists who spend long hours standing, including nurses, doctors, physiotherapists, laboratory staff and catering professionals. **Why is Piumetta rocker sole footwear the best choice? • Ergonomics and support:** The specialized rocker sole promotes the natural movement of the foot and effectively reduces micro-shocks while walking on hard hospital or kitchen floors. It helps relieve pressure on joints, knees and the spine, reducing leg fatigue throughout the working day. • **Hygiene and comfort:** The lining made of modern microfiber provides excellent ventilation and is skin-friendly, while the SHAPE insole adapts perfectly to the anatomical shape of the foot, ensuring softness and comfort with every step. • **Polish quality:** Every model in the Piumetta range stands for durability and reliable craftsmanship. Available in a wide range of colours, they perfectly complement a professional look. **Choose Piumetta footwear** – invest in the health of your feet and enjoy lasting comfort even after a long working day.

Collection

Piumetta is a collection of comfortable women footwear designated for work and everyday use. Models within this series were designed to ensure comfortable use and aesthetic values. Light, anatomically moulded soles were selected to ensure the highest level of comfort. Each model is made of best quality materials. Piumetta footwear is designated for persons exposed to overstraining their feet during a work day.
